Fire Clean Up

Road Manager has found out that the Calaveras Office of Emergency Services (OES) is coming to clean up burned areas. appliances, wood, metal, etc. it is ALL hazardous waste and should NOT be moved by residents. OES is also going to be scraping down the dirt around the burned houses as that is also hazardous.

OES is working with the Calaveras Milton dump to see if they can accept that much hazardous waste. Otherwise, they might need to haul to Utah at a great expense to the county and the residents.

We will post more information as we receive it.

Calaveras Office of Emergency Services: (209) 754-2890
